武汉亿科德精细化工

Products

We produce a wide range of benzoate plasticizers, suitable for diverse fields and applications.

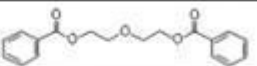

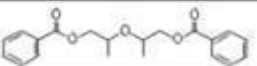

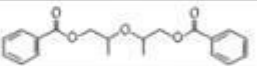

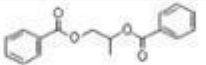

They offer:

- Environmentally friendly, phthalate-free solutions
- Low VOC emissions
- Excellent compatibility with various polymers and resins
- Enhanced flexibility, durability, and processing performance
- Sustainable and biodegradable alternatives

ECOD-FLEX 342 as Pesticide Carrier

As pesticide carrier, ECOD-FLEX 342(Dipropylene Glycol Dibenzoate) offers:

- ◆ Great Solubility
- ◆ Good Compatibility
- ◆ Low VOC
- ◆ Biodegradability
- ◆ Enhanced Stability

It has already applied in Syngenta's *MATCH*(Lufenuron System)

COUNTERPART PRODUCTS OF ECOD, EASTMAN & LANXESS

Market Position

- A leading benzoic ester plasticizer producer in China & Asia, focusing on commercial production and custom manufacturing.
- Ranked No. 3 globally after Eastman and Lanxess; product quality even better, though brand awareness and volumes still lag
- Larger business volume in China than Eastman & Lanxess; main applications: adhesives & coatings, TPU, textile auxiliaries, PVC flooring, etc.
- Significant room to grow in the global market; expanding international business and multinational accounts
- Planning a new plant for innovative products based on benzoic acid and glycols

Why Choose Us

1

Leading Position

A leading benzoic ester plasticizer producer in China & Asia; No. 3 globally after Eastman and Kalama

2

Strategic partner

Velsicol Chemical LLC as our distributor, collaborating on new product development

3

Fully certified

Fully approved by local authorities; ISO 9001 & ISO 14000 certified

Flexibility & Quality

Flexible to meet customer demands; efficient quality control system in place

4

Inventory Assurance

Sufficient raw materials & finished products to ensure on-time supply

5

Industry Experience

Extensive experience working with multinationals and industry leaders in China

6

Our Prartners

*We keep our promises and make our customers
successdul*

Thanks For your time!
